Slide 2

CS1

Cutler Stephen, 14/08/2019

We won!

Assessment of the patient

Airway & Cervical spine

Breathing

Circulation

Disability (Neuro)

Exposure and Fractures

Fluids electrolytes and renal

Gut

Haematology

Infection

Organisational

Just in case (Mobile etc)

Kit check

Lab Results

Monitoring

Notes & X rays

Oxygen

Paperwork and Phone

Quality control

What did we want to do?

The aim of this proposal was to use the money to purchase camera equipment to film a video in order to teach the A-Q patient assessment.

Time line of events

September 2018

- Won the dragons den prize

October 2018

- Brought DSLR along with accessories with the guidance of the GSTT Simulation techs.

Late October

- Farther passed away

December 2018

- Storyboard wrote with the ICU transfer team

Winter

- Delays (bed occupancy, staff sickness)

Time line of events

April 2019

Filming commenced!

May 2019

Approached the Trust to look at uploading onto the Trusts intranet

June 2019

The Trust showed interest in this project however the quality was not high enough to load onto the Intranet

July 2019

Camera Stolen!

So then what?

- We were able to use the camera to shoot other in-situ simulations in the department
- We were also able to use the Camera to film other techniques such as connecting patients to filtration

The result!
