Why become a Corporate Partner with BACCN?

The British Association of Critical Care Nurses (BACCN) is a leading not for profit organisation dedicated to the promotion of nursing in critical care.

- With 13 regions spanning the UK and Northern Ireland with approximately 2000 members, the BACCN is one of the largest and most influential professional organisations within critical care.
- The BACCN holds annual national and international conferences, alongside regional study days and events.
- BACCN hosts an interactive website with a dedicated area and resources for members.
- BACCN has its own publication - ‘Nursing in Critical Care (NICC).

These features have ensured that BACCN is one of the most progressive critical care organisations around.

As a member of the European Federation of Critical Care Nursing Association, the BACCN is also working to build links with other critical care colleagues across Europe.

BACCN Aims:

To advance the art and science of critical care nursing through the following:

- Mutual support
- Education
- Research
- Multi-disciplinary collaboration

The BACCN believes it essential to build on current partnerships and develop new links between medical supply and service companies and will continue to lead the way in critical care through three key aims:

1. Provide a national voice to shape the strategy for critical care nursing
2. Promote safe, quality evidence-based nursing care to the critically ill patient
3. Provide wide ranging benefits and opportunities to BACCN members

There are a range of companies in the current marketplace who regularly support the BACCN.

BACCN intend to develop new relationships as well as build on these existing relationships by adding value and benefit to the companies that support us, the BACCN itself and BACCN members.

We would be pleased to hear from you to discuss these opportunities further or to discuss other ideas that might be mutually beneficial, so do, please get in touch.

Kind regards,

David Waters
