

## Grant Report - BACCN Annual Conference 2025, Blackpool - Francesca Trotta

Attending the BACCN Conference 2025 was an inspiring experience! I had the pleasure of presenting my work on alarm fatigue to a full room and engaging in vibrant discussions on how we can improve critical care nursing practice. It was also wonderful to connect with colleagues as part of the *Nursing in Critical Care* editorial team. Being a BACCN member means belonging to a dynamic and supportive community that fosters collaboration, innovation, and professional growth, and I'm truly proud to be part of it.
