Subject: Step 4 National Competency Framework

This chat will be moderated by: Ann Price (@AnnPriceCCCU) on behalf of the BACCN using @BACCNUK with the following hashtag: #baccnstep4

BACCN Twitter Chat is a great way to update about topics and contribute to discussion. You can also use it as evidence towards your NMC revalidation.

BACCN has represented its members for developing the Step competencies with Critical Care Networks – National Nurse Leads (CC3N) who lead the development. To review the competency framework please see <https://www.cc3n.org.uk/step-competency-framework.html>

Step 4 Competencies have been designed to provide staff with the core skills required to take charge in a critical care unit; building management and leadership capability into staff professional development, to demonstrate safe and effective coordination and prioritisation of unit workload, workforce and resources.

This Twitter chat will focus on the Step 4 competencies so please join us to discuss your experiences, thoughts and insights using the hashtag #baccnstep4
