

BACCN Representative on Project Group/Advisory
Board/Collaborative Work

Work Title: Cardiogenic Shock UK Working Group
Matthew Parkin Representing BACCN from May 2021

Scope of Work (e.g. background of project/expectations of involvement):

Formed in September 2019, by Dr Alastair Proudfoot (Barts Heart Centre) through ICS, BCIS and BCS.

The aim of the working group was to look at the optimal pathway for patients with cardiogenic shock to improve patient outcomes and experience, focusing on the acute pathways of care.

Asked to contribute the recognition of cardiogenic shock in hospital patients for the framework document, completed.

Date(s) Start: September 2019	Finish: Still in progress awaiting final document
--	--

Feedback (to include/highlight any pertinent issues for the attention/action of the BACCN National Board)

Framework document draft sent out and review by UKCSWG.
Sent to Nicki Credland 5/5/22.

Next meeting

Not confirmed yet, will update.
