

VETERINARY CRITICAL CARE NURSES

COMMITTEE PRESENTS:

“Nursing the Veterinary heatstroke patient”

Thursday 11th May 19:00 – 20:00

Online webinar event presented by:

**Elle Haskey BSc(hons)PGCert VetEd FHEA RVN VTS(ECC) VPAC A1
The Royal Veterinary College, London**

Heatstroke is a complex inflammatory process, which if untreated can lead to multi organ failure and in severe cases death. Elle will discuss physiology, risk factors and nursing considerations as well as how owners can help in the prevention of this dangerous and complex condition.

Members: Free, Non – members: £5
